

MUBA BLOCKCHAIN HACKATHON 2026 · GONKAROUTER TRACK

The answer key is wrong. Nobody checked.

Cekgu reviews a quiz before learners sit it.

TEAM M1KU **ROSTER TO FILL**

PROBLEM STATEMENT

One wrong key, every learner pays.

A wrong key. Two defensible
answers. A missing word.

The paper was vetted. The defect
survived.

Which data structure follows FIFO?

SUPPLIED KEY

- A

Array
- B

Stack
- C

Queue
- D

Tree

Published. Nobody re-solved it.

VETTED

PROJECT OBJECTIVE

Spend human attention where it matters.

EVERY ITEM, READ AGAIN 12

FOUR ITEMS, IN ORDER 4

Possible Key Error

Unverified

Unverified

8 items

Clear

3 Sep benchmark, pass 1 of 12 items

Two readers, blind, then a fixed rule.

Which data structure follows FIFO?

Key Withheld

- CHECKED IN THIS ORDER
- 1

Unverified

fewer than two verified readings
- 2

Split Opinion

the two answers differ
- 3

Possible Ambiguity

both list more than one option
- 4

Clear

the shared answer is the key
- 5

Possible Key Error

the shared answer is not the key

Which data structure follows FIFO?

Receipt Verified

Possible Key Error

Both readers chose Queue. The supplied key is Stack.

Nobody told them the key.

Both chose Queue. The supplied key says Stack.

Cekgu asks a human to look. It changes nothing.

Every reading carries a request id.

Copy it into the receipt URL. The gateway names the model that answered.

●○ Possible Key Error

Both ids are public. Neither reading counts without one.

One process. One gateway. Two models.

No other AI provider exists anywhere in the code.

MOTIVATION AND CHALLENGES

No item had two readings in 30 seconds.

So Cekgu queues the work, retries, and fails closed.

Fewer than two verified readings is never a verdict.

SECONDS TO A COMPLETED CALL, 3 SEP

13 of 13

verified verdicts matched the planted state

0

false flags on the clean controls

QUESTIONS CHECKED PER MONTH

Guest is a shared demo workspace, expiring in 24 hours.

BUSINESS MODEL

We charge for questions checked.

Not tokens. The educator never sees a model bill.

Pilot pricing. No buyer has paid yet.

Check the exam before the exam checks us.
